Under 37 CFR § 706.07(b), a final rejection is improper in a first office action in a continuing application unless all claims of the new application (1) are drawn to the same invention claimed in the earlier application, and (2) would have been properly finally rejected on the grounds and art of record in the next Office Action if they had been entered in the earlier application.

However, the following reference was not of record in the earlier application and therefore the claims of the continuing application could not have been properly finally rejected if they had been entered in the earlier application: U.S. 6,206,138 (Yerger)

Respectfully submitted,

Dated: 16 MAR 05
